Note: GST status was confirmed after an Audit as of 1 July, 2013.

Note: The above Schedule of fees and charges has been prepared using the best available information in relation to the GST impact on the fees and charges at the time of publication. However, there are still a number of fees and charges for which Council is not able to confirm the GST status. Some prices may alter depending upon the results of an ATO ruling being sought on the taxation of the displayed fees and charges. Accordingly, if a fee that is shown as being subject to GST is subsequently proven not to be subject to GST, then that fee will be amended by reducing the GST to Nil. Conversely, if Council is advised that a fee which is shown as being not subject becomes subject to GST, then the fee will be increased but only to the extent of the GST.
