

NOTICE TO APPLICANT OF DETERMINATION OF A DEVELOPMENT APPLICATION

Issued under the *Environmental Planning & Assessment Act, 1979* Section 81(1)(a)

TO: **Mr Brett Lance Uebergang and Mrs Larissa Anne Uebergang**
OF: **'Glendowne'**
1226 Yetman Road
Inverell NSW 2360

being the applicant in respect of **Application No DA-134/2020**

Notice is hereby given of the determination by Council of **Application No. DA-134/2020** relating to the land owned by **Mr Brett Lance Uebergang and Mrs Larissa Anne Uebergang, of 'Glendowne', 1226 Yetman Road, Inverell NSW 2360** and is described as follows:

Lot 542 DP 753287
68 Lochinvar Lane, INVERELL 2360

The development proposal is: **Demolish Existing Dwelling**

The Determination is **consent granted subject to conditions described below** made on **22 October 2020**.

This consent expires five (5) years from the date on which it commences to operate in accordance with Section 83 of the Environmental Planning and Assessment Act 1979 unless the work to which it relates has physically commenced on site within that period. Where the approval relates to a use of the land rather than to the carrying out of works then that use must have commenced on site within that five year period.

The conditions of consent are set out as follows:

Preliminary

1. Inverell Shire Council issues its consent, subject to conditions stated hereunder, in accordance with Section 80A of the *Environmental Planning and Assessment Act 1979*.

Consent is granted for the demolition of one (1) dwelling on Lot 542 DP 753287 (location shown on the attached plan).

To confirm and clarify the terms of consent, the development must be carried out in accordance with the stamped and approved plan modified by any following condition. Any deviation will require the consent of Council.

2. The applicant must comply with all relevant prescribed conditions as contained in Division 8A of the *Environmental Planning & Assessment Regulation 2000* (as detailed at the end of this consent).

During Demolition

3. Any demolition work involving bonded asbestos removal work (of an area of more than 10 square metres) or friable asbestos removal work must be undertaken by a person who carries on a business of such removal work in accordance with a licence under clause 458 of the *Work Health and Safety Regulation 2011*.

The owner must provide Council with a copy of a signed contract with such a person before any development pursuant to the complying development certificate commences,

Any such contract must indicate whether any bonded asbestos material or friable asbestos material will be removed, and if so, must specify the landfill site (that may lawfully receive asbestos) to which the bonded asbestos material or friable asbestos material is to be delivered.

If the contract indicates that bonded asbestos material or friable asbestos material will be removed to a specified landfill site, the owner must give Council a copy of a receipt from the operator of the landfill site stating that all the asbestos material referred to in the contract has been received by the operator.

4. All waste materials (including excavation, demolition, construction and vegetation waste materials) must be managed on the site and then disposed of at a waste management facility.

Within 14 days of completion of demolition, copies of receipts stating the following must be given to Council:

- The place to which waste materials were transported;
- The name of the contractor transporting the materials; and
- The quantity of materials transported off-site and recycled or disposed of.

5. All demolition work is to be carried out in accordance with *Australian Standard 2601 The demolition of structures*.

6. At all times during demolition a competent person shall directly supervise work. It is the responsibility of the person to ensure that:

- The structure to be demolished and all its components shall be maintained in a stable and safe condition at all stages of the demolition work;
- Precautions are to be taken to ensure that the stability of all parts of the structure and the safety of persons on and outside the site are maintained particularly in the event of sudden and severe weather changes; and
- The site shall be sealed off at all times against the unauthorised entry of persons or vehicles.

7. All utilities are to be disconnected from the site and capped to the satisfaction of the relevant authority.

8. The applicant will:

- Repair, or pay the full costs associated with repairing any public infrastructure that is damaged by the development, and
- Relocate, or pay the full costs associated with relocating any public infrastructure that needs to be relocated as a result of the development.

Reasons for Conditions:

The above conditions have been imposed:

1. To ensure compliance with the terms of the applicable environmental planning instruments.
2. Having regard to Council's duties of consideration under Section 79C of the *Environmental Planning and Assessment Act 1979*, as well as Section 80A which authorizes the imposing of the consent conditions.
3. Having regard to the circumstances of the case and the public interest.

Reasons for Approval

1. The demolition is permissible under the Inverell Local Environmental Plan 2012 and the dwelling is not identified as a heritage item.
2. Demolition activities can be managed to ensure minimal impact on the natural and built environment of the area.

Community Consultation

As per the Inverell Community Participation Plan, the demolition is considered to be a minor development with minimal environmental impact and notification was not necessary.

If you are dissatisfied with this decision section 97 of the *Environmental Planning and Assessment Act 1979* gives you the right to appeal to the Land and Environment Court within 6 months after the date on which you receive this notice.

You are also advised that section 82A of the *Environmental Planning and Assessment Act 1979* provides that you may apply to Council for a review of this decision subject to the limitations contained in that section and payment of the prescribed fee.

On behalf of Inverell Shire Council

CHRIS FALEY
DEVELOPMENT SERVICES COORDINATOR
DATE : 22 October 2020

Annexure

Prescribed Conditions Summary

As per condition 2 of this consent, the following matters prescribed under Division 8A of the *Environmental Planning & Assessment Regulation 2000* must be complied with, where relevant:

1. All work must be carried out in accordance with the requirements of the *Building Code of Australia*.
2. In the case of residential building work for which the *Home Building Act 1989* requires there to be a contract of insurance in force in accordance with Part 6 of that Act, that such a contract of insurance is in force before any building work authorised to be carried out by the consent commences.
3. Prior to commencement of building work, subdivision work or demolition work a sign must be erected in a prominent position on the site. The sign must:
 - show the name, address and telephone number of the principal certifying authority for the work;
 - show the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours; and
 - state that unauthorised entry to the work site is prohibited.

The sign is to be maintained while the work is being carried out, but must be removed when the work has been completed.

4. Residential building work within the meaning of the *Home Building Act 1989* must not be carried out unless the principal certifying authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - in the case of work for which a principal contractor is required to be appointed:
 - the name and licence number of the principal contractor; and
 - the name of the insurer by which the work is insured under Part 6 of that Act; and
 - in the case of work to be done by an owner-builder:
 - the name of the owner-builder; and
 - if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified as required above becomes out of date, further work must not be carried out unless the principal certifying authority for the development to which the work relates (not being the council) has given the council written notice of the updated information.

5. If the development involves an excavation that extends below the level of the base of the footings of a building, structure or work (including any structure or work within a road or rail corridor) on adjoining land, the person having the benefit of this consent, must at the person's own expense:
 - protect and support the building, structure or work from possible damage from the excavation; and
 - where necessary, underpin the building, structure or work to prevent any such damage.
