

NOTICE OF DETERMINATION OF A DEVELOPMENT APPLICATION

Approval Issued under Section 4.18(1)(a) of the Environmental Planning and Assessment Act 1979

Application No.	DA-144/2021
Applicant	Ruralplan Consultants
Land to be developed	Lot 2 DP 1268118 (Lot 5 DP 1277559 of DA-67/2020) 518 Yetman Road, INVERELL 2360
Approved development	Concept Development Application (Detached Dual Occupancy)
Determination	The determination is consent granted subject to conditions.
Determination date	19 October 2021
Consent is to operate from	19 October 2021
Consent will lapse on	19 October 2026
	Unless the work or use to which this consent relates has lawfully commenced on-site in accordance with Section 4.53 of Environmental Planning and Assessment Act 1979.

CONDITIONS OF CONSENT

Preliminary

1. Inverell Shire Council grants consent for a Concept Development Application pursuant to Division 4.4 of the Environmental Planning and Assessment Act 1979.

Consent is granted for the Concept Development of a Dual Occupancy (Detached) undertaken in the following stages:

- Stage 1 – Construction of a Dwelling, Attached Garage and Carport; and
- Stage 2 – Construction of a second Dwelling resulting in a dual occupancy.

To confirm and clarify the terms of consent, the development must be carried out in accordance with the stamped and approved plans and accompanying documentation, unless modified by any following condition. Any deviation will require the consent of Council.

2. The applicant must comply with all relevant prescribed conditions as contained in Division 8A of the *Environmental Planning & Assessment Regulation 2000*.

Prior to Commencement of Stage 1

3. Prior to the commencement of Stage 1, a Construction Certificate must be issued in accordance with the *Environmental Planning and Assessment Act 1979*.

Prior to Commencement of Stage 2

4. Prior to commencement of Stage 2, separate Development Consent and Construction Certificate (where necessary) are to be obtained. Stage 2 must remain consistent with this consent, including conditions.

5. The application for Development Consent for Stage 2 must be accompanied by detailed plans and specifications of the development. This includes compliance with the versions of Planning for Bush Fire Protection and Australian Standard 3959, applicable at the date of lodgement of the development consent for Stage 2.
6. Prior to issue of a Construction Certificate for Stage 2, contributions must be paid to Council pursuant to Section 7.11 (formerly Section 94) of the *Environmental Planning and Assessment Act 1979* for:
 - General Rural Roads; and
 - Community Services.

During Works – All Stages

7. To safeguard the local amenity, reduce noise nuisance and to prevent environmental pollution during the construction period:
 - Works on site are to be carried out in accordance with the *Protection of the Environment Operations Act 1997* in relation to noise, dust and associated nuisances from the site. The carrying out of works shall not interfere with the quiet enjoyment of the surrounding neighbourhood;
 - Construction may only be carried out between 7.00am and 5.00pm, Monday to Saturday, and no construction is to be carried out at any time on a Sunday or Public Holiday. Council may consent to vary these hours in particular circumstances where it can be demonstrated that it is unavoidable;
 - Stockpiles of topsoil, sand, aggregate, spoil or other material shall be stored clear of any drainage path of easement, natural watercourse, footpath, kerb or road surface and shall implement measures to prevent the movement of such material off site;
 - Building operations such as brick cutting, washing tools, concreting and bricklaying shall be undertaken on the building block. The pollutants from these building operations shall be contained on site;
 - Builders waste must not be burnt or buried on site. All waste (including felled trees) must be contained and removed to a waste disposal depot;
 - Sediment and erosion control measures are to be implemented onsite and maintained until the site is fully stabilised, in accordance with Council's Erosion and Sedimentation Control Policy 2004; and
 - Where the proposed development involves the disturbance of any existing survey monuments, those monuments affected will need to be relocated by a registered surveyor under the *Surveying and Spatial Information Act 2002*. A plan showing the relocated monuments will then be required to be lodged as a matter of public record at the Lands Titles Office.
8. Run-off and erosion control measures must be implemented in accordance with Council's Erosion and Sedimentation Control Policy 2005) to prevent soil erosion, water pollution and the discharge of loose sediment on the surrounding land. Measures are to include:
 - Diverting uncontaminated run-off around cleared or disturbed areas;
 - Erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties;
 - Preventing the tracking of sediment by vehicles onto roads; and
 - Stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.

Run-off and erosion control measures must be in place for the duration of building work and until adequate cover is established on the site.

Prior to Occupation – Stage 1

9. Prior to occupation of the dwelling constructed under Stage 1, an Occupation Certificate must be issued in accordance with the *Environmental Planning and Assessment Act 1979*.

Note: Prior to issue of the Occupation Certificate, the Principal Certifying Authority is required to be satisfied, amongst other things, that:

- *all required inspections (including each applicable mandatory critical stage inspection) have been carried out; and*
 - *any preconditions to the issue of the certificate required by a development consent have been met.*
10. Prior to issue of an Occupation Certificate, a distance of 30 metres must be provided around the dwelling (Stage 1) and maintained in perpetuity as an Asset Protection Zone in accordance with *Planning for Bush Fire Protection*.
 11. Prior to issue of an Occupation Certificate, gas and electricity are to comply with *Planning for Bushfire Protection*.
 12. Prior to issue of an Occupation Certificate, a 20,000 litre dedicated water supply is to be provided and maintained in perpetuity, with a 65mm storz outlet with a gate or ball valve for connection of a Rural Fire Service tanker. The water supply must be located within the Asset Protection Zone.

Advice Only

As part of the construction of a dwelling, outbuildings and/or other development it is the responsibility of the property owners to manage stormwater drainage through the installation of contours, retaining walls, pits and pipes and the like to reduce potential stormwater nuisances, in manner which does detrimentally impact downstream properties. Council is unlikely to take any future action in relation surface water runoff that is caused by extreme rainfall events or that is deemed to be natural runoff from higher properties due to natural topography.

One town water connection has been paid for Lot 5 DP 1277559 at the time of subdivision under DA-67/2020. Should a second water connection be requested by the developer/owner for the dual occupancy, then additional contributions and fees will be payable to Council.

REASONS FOR CONDITIONS

The above conditions have been imposed:

1. To ensure compliance with the terms of the applicable environmental planning instruments.
2. Having regard to Council's duties of consideration under Section 4.15 of the *Environmental Planning and Assessment Act 1979*, as well as Section 4.17 which authorizes the imposing of the consent conditions.
3. Having regard to the circumstances of the case and the public interest.

REASONS FOR APPROVAL

1. The development, subject to conditions, is consistent with the objectives of the R5 Large Lot Residential zone.
2. The built form and design of the dwelling, subject to conditions is consistent with the streetscape and development in the locality.
3. In consideration of residential controls of the Inverell Development Control Plan 2013, the development is considered appropriate within the rural neighbourhood.

COMMUNITY CONSULTATION

As per the Inverell Community Participation Plan the development was considered to be a minor development with minimal environmental impact and notification was not necessary.

RIGHT OF APPEAL

If you are dissatisfied with this decision, Division 8.3 of the *Environmental Planning and Assessment Act 1979* gives you the right to appeal to the Land and Environment Court within 6 months after the date on which you receive this notice. You are also advised that Division 8.2 of the *Environmental Planning and Assessment Act 1979* provides that you may apply to Council for a review of this decision subject to the limitations contained in that section and payment of the prescribed fee.

On behalf of Inverell Shire Council

CHRIS FALEY
DEVELOPMENT SERVICES COORDINATOR
