Table notes:

1. All measurements are in mg/L unless stated otherwise;
2. BD01 = blind field duplicate of BH1;
3. Values preceded with < are below the limit of reporting (LOR);
4. Values highlight in red exceed threshold criteria;
5. * Threshold concentration derived from background aquifer chemistry;
6. (A1) Threshold concentration derived ANZG (2018); and

7. (H) Hardness Modified Trigger Value adjusted as per ANZG (2018) Table 3.
8. n.d not detected as various detection limits (reported in the laboratory results in the Letter report)
9. ² All other compounds tested were n.d.
10. – not analysed or measured
11. Blank cell means that there is no threshold value.
