

# NOTICE OF DETERMINATION OF A DEVELOPMENT APPLICATION

Approval Issued under Section 4.18(1)(a) of the Environmental Planning and Assessment Act 1979

Application Number	DA-41/2023
Applicant	Abode Building Design
Land to be developed	Lot 1 DP 1132560
	559 Old Bundarra Road, Inverell NSW 2360
Approved development	Demolition of existing dwelling and construction of new dwelling
Building Code of Australia Classification	Class 1a
Determination	The determination is consent granted subject to conditions.
Determination date	27 April 2023
Consent is to operate from	27 April 2023
Consent will lapse on	27 April 2028
	Unless the work or use to which this consent relates has lawfully commenced on-site in accordance with Section 4.53 of Environmental Planning and Assessment Act 1979.

#### **CONDITIONS OF CONSENT**

#### Preliminary

1. Inverell Shire Council issues its consent, subject to conditions stated hereunder, in accordance with Section 4.17 of the *Environmental Planning and Assessment Act 1979*.

Consent is granted for:

- Demolition of existing dwelling; and
- New Dwelling.

To confirm and clarify the terms of consent, the development must be carried out in accordance with the stamped and approved plans and accompanying documentation, unless modified by any following condition. Any deviation will require the consent of Council.

- 2. The applicant must comply with all relevant prescribed conditions as contained in Part 4, Division 2 of the Environmental Planning & Assessment Regulation 2021.
- 3. All demolition work is to be carried out in accordance with Australian Standard 2601 The demolition of structures. All asbestos waste must be stored, transported and disposed of in accordance with the *Protection of the Environment Operations (Waste) Regulation 1996.*
- 4. The dwelling is to be constructed to comply with the BAL-12.5 construction standards of Australian Standard 3959 Construction of buildings in bushfire-prone areas.

### **Prior to Construction**

- 5. Prior to the commencement of any works (including earthworks) associated with the new dwelling on the site a Construction Certificate must be issued in accordance with the *Environmental Planning and Assessment Act 1979*. The application for a Construction Certificate must include plans and specifications demonstrating full compliance with the Building Code of Australia and associated standards.
- 6. Prior to issue of a Construction Certificate, approval under Section 68 of the *Local Government Act 1993* is to be obtained from Council for the connection to, and the operation of the onsite sewage management system for the new dwelling.

## **During Construction**

- 7. To safeguard the local amenity, reduce noise nuisance and to prevent environmental pollution during the construction period:
  - Works on site are to be carried out in accordance with the Protection of the Environment Operations Act 1997 in relation to noise, dust and associated nuisances from the site. The carrying out of works shall not interfere with the quiet enjoyment of the surrounding neighbourhood;
  - Construction may only be carried out between 7.00am and 5.00pm, Monday to Saturday, and no construction is to be carried out at any time on a Sunday or Public Holiday. Council may consent to vary these hours in particular circumstances where it can be demonstrated that it is unavoidable;
  - Stockpiles of topsoil, sand, aggregate, spoil or other material shall be stored clear of any drainage path of easement, natural watercourse, footpath, kerb or road surface and shall implement measures to prevent the movement of such material off site;
  - Building operations such as brick cutting, washing tools, concreting and bricklaying shall be undertaken on the building block. The pollutants from these building operations shall be contained on site;
  - Builders waste must not be burnt or buried on site. All waste (including felled trees) must be contained and removed to a waste disposal depot;
  - Sediment and erosion control measures are to be implemented onsite and maintained until the site is fully stabilised, in accordance with Council's Erosion and Sedimentation Control Policy 2004; and
  - Where the proposed development involves the disturbance of any existing survey monuments, those monuments affected will need to be relocated by a registered surveyor under the Surveying and Spatial Information Act 2002. A plan showing the relocated monuments will then be required to be lodged as a matter of public record at the Lands Titles Office.
- 8. Run-off and erosion control measures must be implemented in accordance with Council's Erosion and Sedimentation Control Policy 2005) to prevent soil erosion, water pollution and the discharge of loose sediment on the surrounding land. Measures are to include:
  - Diverting uncontaminated run-off around cleared or disturbed areas;
  - Erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties;
  - Preventing the tracking of sediment by vehicles onto roads; and
  - Stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.

Run-off and erosion control measures must be in place for the duration of building work and until adequate cover is established on the site.

### Prior to Occupation

9. Prior to occupation of the dwelling, an Occupation Certificate must be issued in accordance with the *Environmental Planning and Assessment Act 1979*.

Note: Prior to issue of the Occupation Certificate, the Principal Certifying Authority is required to be satisfied, amongst other things, that:

- all required inspections (including each applicable mandatory critical stage inspection)
  have been carried out; and
- any preconditions to the issue of the certificate required by a development consent have been met.
- 10. Prior to issue of an Occupation Certificate, a distance of 22 metres must be provided to the south and west; 20 metres to the east and 10 metres to the north must be provided around the dwelling and maintained in perpetuity as an Asset Protection Zone in accordance with *Planning for Bush Fire Protection*. In this regard it is the applicant's responsibility to provide documentary evidence that this condition has been met.
- 11. Prior to issue of an Occupation Certificate, gas and electricity for the dwelling is to comply with *Planning for Bushfire Protection*.
- 12. Prior to issue of an Occupation Certificate, a 20,000 litre dedicated water supply is to be provided to the dwelling and maintained in perpetuity, with a 65mm storz outlet with a gate or ball valve for connection of a Rural Fire Service tanker. The water supply must be located within the Asset Protection Zone.
- 13. Prior to issue of an Occupation Certificate for the dwelling, the system of onsite sewage management (as approved under Section 68 of the *Local Government Act 1993*) must be operational.

### Advice Only

As part of the construction of a dwelling, outbuildings and/or other development it is the responsibility of the property owners to manage stormwater drainage through the installation of contours, retaining walls, pits and pipes and the like to reduce potential stormwater nuisances, in manner which does detrimentally impact downstream properties. Council is unlikely to take any future action in relation surface water runoff that is caused by extreme rainfall events or that is deemed to be natural runoff from higher properties due to natural topography.

### **REASONS FOR CONDITIONS**

The above conditions have been imposed:

- 1. To ensure compliance with the terms of the applicable environmental planning instruments.
- Having regard to Council's duties of consideration under Section 4.15 of the Environmental Planning and Assessment Act 1979, as well as Section 4.17 which authorizes the imposing of the consent conditions.
- Having regard to the circumstances of the case and the public interest.

#### **REASONS FOR APPROVAL**

- 1. The development, subject to conditions, is consistent with the objectives of the RU1 Primary Production zone.
- 2. In consideration of the Inverell Development Control Plan 2013, the built form and design of the dwelling is consistent with the rural locality.
- 3. Subject to conditions, the development is considered to comply with Planning for Bush Fire Protection 2019.

### **COMMUNITY CONSULTATION**

As per the Inverell Community Participation Plan the development was considered to be a minor development with minimal environmental impact and notification was not necessary.

## **RIGHT OF APPEAL**

If you are dissatisfied with this decision, Division 8.3 of the *Environmental Planning and Assessment Act 1979* gives you the right to appeal to the Land and Environment Court within 6 months after the date on which you receive this notice. You are also advised that Division 8.2 of the *Environmental Planning and Assessment Act 1979* provides that you may apply to Council for a review of this decision subject to the limitations contained in that section and payment of the prescribed fee.

On behalf of Inverell Shire Council
