

## NOTICE OF DETERMINATION OF A DEVELOPMENT APPLICATION

*Approval Issued under Section 4.18(1)(a) of the Environmental Planning and Assessment Act 1979*

<b>Application Number</b>	<b>DA-63/2023</b>
<b>Applicant</b>	Ruralcert Pty Ltd
<b>Land to be developed</b>	Lot 3 DP 817803 293 Swanbrook Road, Inverell NSW 2360
<b>Approved development</b>	Secondary dwelling
<b>Building Code of Australia Classification</b>	Class 1a
<b>Determination</b>	The determination is <b>consent granted subject to conditions</b> .
<b>Determination date</b>	26 September 2023
<b>Consent is to operate from</b>	26 September 2023
<b>Consent will lapse on</b>	26 September 2028 Unless the work or use to which this consent relates has lawfully commenced on-site in accordance with Section 4.53 of Environmental Planning and Assessment Act 1979.

### CONDITIONS OF CONSENT

#### *Preliminary*

1. Inverell Shire Council issues its consent, subject to conditions stated hereunder, in accordance with Section 4.17 of the *Environmental Planning and Assessment Act 1979*.

Consent is granted for the construction of a secondary dwelling.

To confirm and clarify the terms of consent, the development must be carried out in accordance with the stamped and approved plans and accompanying documentation, unless modified by any following condition. Any deviation will require the consent of Council.

2. The applicant must comply with all relevant prescribed conditions as contained in Part 4, Division 2 of the *Environmental Planning & Assessment Regulation 2021*.

#### *Prior to Construction*

3. Prior to the commencement of any works (including earthworks) on the site a Construction Certificate must be issued in accordance with the *Environmental Planning and Assessment Act 1979*. The application for a Construction Certificate shall include plans and specifications demonstrating full compliance with the Building Code of Australia and associated standards.
4. Prior to issue of a Construction Certificate for the dwelling, Section 7.11 contributions for the Secondary Dwelling are to be paid to Council for:
  - General Rural Roads; and
  - Community Services.
5. Prior to issue of a Construction Certificate, the Accredited Certifier is to be provided with:

- Revised plans demonstrating that the Secondary Dwelling is 5 metres (measured horizontally from Essential Energy's infrastructure, including the mains power line and power pole adjacent to the secondary dwelling); or
- A copy of an approval from Essential Energy for the removal of the service pole and relocation of the mains power line; or
- Certification from Essential Energy that the proposed development does not pose a safety risk to the electricity infrastructure.

#### ***During Construction***

6. To safeguard the local amenity, reduce noise nuisance and to prevent environmental pollution during the construction period:
- Works on site are to be carried out in accordance with the *Protection of the Environment Operations Act 1997* in relation to noise, dust and associated nuisances from the site. The carrying out of works shall not interfere with the quiet enjoyment of the surrounding neighbourhood;
  - Construction may only be carried out between 7.00am and 5.00pm, Monday to Saturday, and no construction is to be carried out at any time on a Sunday or Public Holiday. Council may consent to vary these hours in particular circumstances where it can be demonstrated that it is unavoidable;
  - Stockpiles of topsoil, sand, aggregate, spoil or other material shall be stored clear of any drainage path of easement, natural watercourse, footpath, kerb or road surface and shall implement measures to prevent the movement of such material off site;
  - Building operations such as brick cutting, washing tools, concreting and bricklaying shall be undertaken on the building block. The pollutants from these building operations shall be contained on site;
  - Builders waste must not be burnt or buried on site. All waste (including felled trees) must be contained and removed to a waste disposal depot; and
  - Where the proposed development involves the disturbance of any existing survey monuments, those monuments affected will need to be relocated by a registered surveyor under the *Surveying and Spatial Information Act 2002*. A plan showing the relocated monuments will then be required to be lodged as a matter of public record at the Lands Titles Office.
7. Prior to commencement of works (including earthworks), run-off and erosion control measures must be implemented in accordance with Council's Erosion and Sedimentation Control Policy (2005) to prevent soil erosion, water pollution and the discharge of loose sediment on the surrounding land. Measures are to include:
- Diverting uncontaminated run-off around cleared or disturbed areas;
  - Erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties;
  - Preventing the tracking of sediment by vehicles onto roads; and
  - Stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.

Run-off and erosion control measures must be in place for the duration of building work and until adequate cover is established on the site.

#### ***Prior to Occupation***

8. An Occupation Certificate must be issued for each building in accordance with the *Environmental Planning and Assessment Act 1979*.

*Note: Prior to issue of the Occupation Certificate, the Principal Certifying Authority is required to be satisfied, amongst other things, that:*

- *all required inspections (including each applicable mandatory critical stage inspection) have been carried out; and*
- *any preconditions to the issue of the certificate required by a development consent*

have been met.

9. Prior to issue of an Occupation Certificate, all stormwater (i.e. roof water and/or surface water) shall be drained in accordance with *Australian Standard 3500.3 Plumbing and drainage*.

#### **Advice Only**

- a. As part of the construction of a dwelling, outbuildings and/or other development it is the responsibility of the property owners to manage stormwater drainage through the installation of contours, retaining walls, pits and pipes and the like to reduce potential stormwater nuisances, in manner which does detrimentally impact downstream properties. Council is unlikely to take any future action in relation surface water runoff that is caused by extreme rainfall events or that is deemed to be natural runoff from higher properties due to natural topography.
- b. Should a dedicated town water connection be requested by the developer/owner for the secondary dwelling, then contributions and fees will be payable to Council.
- c. It is also essential that all works comply with SafetWork clearance requirements. In this regard it is the responsibility of the person/s completing any works to understand their safety responsibilities. The applicant will need to submit a Request for Safety Advice if works cannot maintain the safe working clearances set out in the Working Near Overhaed Powerlines Code of Practice, or CEOP8041 – Working Near Essential Energy's Underground Assets.
- d. Any activities in proximity to electrical infrastructure must be undertaken in accordance with the latest industry guideline currently known as ISSC 20 Guideline for the Management of Activities within Electricity Easements and Close to Infrastructure.
- e. Prior to carrying out any works, a "Dial Before You Dig" enquiry should be undertaken in accordance with the requirements of Part 5E (Protection of Underground Electricity Power Lines) of the Electricity Supply Act 1995 (NSW); the location of overhead and underground powerlines are also shown in the Look Up and Live app [essen@alenergy.com.au/lookupandlive](https://www.essentialenergy.com.au/lookupandlive).

#### **REASONS FOR CONDITIONS**

The above conditions have been imposed:

1. To ensure compliance with the terms of the applicable environmental planning instruments.
2. Having regard to Council's duties of consideration under Section 4.15 of the *Environmental Planning and Assessment Act 1979*, as well as Section 4.17 which authorizes the imposing of the consent conditions.
3. Having regard to the circumstances of the case and the public interest.

#### **REASONS FOR APPROVAL AND COMMUNITY CONSULTATION**

1. The development, subject to conditions, is consistent with the objectives of the R5 Large Lot Residential zone.
2. The built form and design of the secondary dwellings, subject to conditions, is consistent with rural residential area and complies with the Inverell Development Control Plan 2013.
3. DA-63/2023 was referred to Essential Energy in accordance with State Environmental Planning Policy (Transport and Infrastructure) 2021 and a condition imposed in relation to their requirements.

#### **Community Consultation**

Neighbour notification was undertaken in accordance with the Inverell Community Participation Plan. No submissions were received.

## **RIGHT OF APPEAL**

If you are dissatisfied with this decision, Division 8.3 of the *Environmental Planning and Assessment Act 1979* gives you the right to appeal to the Land and Environment Court within 6 months after the date on which you receive this notice. You are also advised that Division 8.2 of the *Environmental Planning and Assessment Act 1979* provides that you may apply to Council for a review of this decision subject to the limitations contained in that section and payment of the prescribed fee.

On behalf of Inverell Shire Council
