## Building Work

### Before issue of a construction certificate

No additional conditions have been applied to this stage of development.

### Before building work commences

6	<b>Construction -Erosion and Sediment Control</b>
	<p>Prior to commencement of works (including earthworks), run-off and erosion control measures must be implemented to prevent soil erosion, water pollution and the discharge of loose sediment on the surrounding land. Measures are to include:</p> <ul style="list-style-type: none"> <li>• Diverting uncontaminated run-off around cleared or disturbed areas;</li> <li>• Erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties;</li> <li>• Preventing the tracking of sediment by vehicles onto roads; and</li> <li>• Stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot.</li> </ul> <p>Run-off and erosion control measures must be in place for the duration of building work and until adequate (more than 70%) vegetation (grass) cover is established on the site to prevent debris escaping from the site into drainage systems, waterways, adjoining properties and roads. In the event that the building contract is completed, it is the responsibility of the owner to maintain the run-off and erosion control measures.</p> <p><b>Condition reason:</b> To ensure sediment laden runoff and site debris do not impact local stormwater systems and waterways.</p>

### During building work

No additional conditions have been applied to this stage of development.

### General advisory notes

This consent contains the conditions imposed by the consent authority which are to be complied with when carrying out the approved development. However, this consent is not an exhaustive list of all obligations which may relate to the carrying out of the development under the EP&A Act, EP&A Regulation and other legislation. Some of these additional obligations are set out in the [Conditions of development consent: advisory notes](#). The consent should be read together with the *Conditions of development consent: advisory notes* to ensure the development is carried out lawfully.

The approved development must be carried out in accordance with the conditions of this consent. It is an offence under the EP&A Act to carry out development that is not in accordance with this consent. Building work or subdivision work must not be carried out until a construction certificate or subdivision

works certificate, respectively, has been issued and a principal certifier has been appointed.

A document referred to in this consent is taken to be a reference to the version of that document which applies at the date the consent is issued, unless otherwise stated in the conditions of this consent.
