	Condition reason: To ensure approval under Section 138 is obtained.
4	Addressing
	Prior to the issue of a Subdivision Certificate, a rural addressing fee in accordance with Council's fees and charges is to be paid to Council for each new lot/access.
	Condition reason: To ensure the rural addressing fee has been paid in accordance with Council's fees and charges.

Before subdivision work commences

5	Erosion and sediment controls in place
	Before any site work commences, Inverell Shire Council must be satisfied the erosion and sediment controls in the erosion and sediment control plan are in place. These controls must remain in place until any bare earth has been restabilised in accordance with 'Managing Urban Stormwater: Soils and Construction' prepared by Landcom (the Blue Book) (as amended from time to time).
	Condition reason: To ensure sediment laden runoff and site debris do not impact local stormwater systems and waterways.

During subdivision work

6	Hours of work
	Site work must only be carried out between the following times – From 7:00am to 5:00pm on Monday to Friday.
	Site work is not to be carried out outside of these times except where there is an emergency, or for urgent work directed by a police officer or a public authority.
	Condition reason: To protect the amenity of the surrounding area.

7	<p>Construction - Local Amenity, noise and environmental protection</p> <p>To safeguard the local amenity, reduce noise nuisance and to prevent environmental pollution during the construction period:</p> <ul style="list-style-type: none"> • Works on site are to be carried out in accordance with the Protection of the Environment Operations Act 1997 in relation to noise, dust and associated nuisances from the site. The carrying out of works shall not interfere with the quiet enjoyment of the surrounding neighbourhood; • Stockpiles of topsoil, sand, aggregate, spoil or other material shall be stored clear of any drainage path of easement, natural watercourse, footpath, kerb or road surface and shall implement measures to prevent the movement of such material off site; • Builders waste must not be burnt or buried on site. All waste (including felled trees) must be contained and removed to a waste disposal depot; <p>Where the proposed development involves the disturbance of any existing survey monuments, those monuments affected will need to be relocated by a registered surveyor under the <i>Surveying and Spatial Information Act 2002</i>. A plan showing the relocated monuments will then be required to be lodged as a matter of public record at the Lands Titles Office.</p> <p>Condition reason: To protect local amenity and survey monuments during construction.</p>

Ongoing use for subdivision work

No additional conditions have been applied to this stage of development.

General advisory notes

This consent contains the conditions imposed by the consent authority which are to be complied with when carrying out the approved development. However, this consent is not an exhaustive list of all obligations which may relate to the carrying out of the development under the EP&A Act, EP&A Regulation and other legislation. Some of these additional obligations are set out in the [*Conditions of development consent: advisory notes*](#). The consent should be read together with the *Conditions of development consent: advisory notes* to ensure the development is carried out lawfully.

The approved development must be carried out in accordance with the conditions of this consent. It is an offence under the EP&A Act to carry out development that is not in accordance with this consent. Building work or subdivision work must not be carried out until a construction certificate or subdivision works certificate, respectively, has been issued and a principal certifier has been appointed.

A document referred to in this consent is taken to be a reference to the version of that document which applies at the date the consent is issued, unless otherwise stated in the conditions of this consent.
